## Needy Wartime Vets Qualify For Pension

Needy veterans with wartime service who are 65 years of age or older may qualify for a Veterans Administration disability pension without proving a specific disability, Neil R. Smart, Manager of the VA Regional Office in Montgomery, said.

For VA pension purposes, wartime veterans are considered by law to be totally and permanently disabled at age 65.

This makes such veterans eligible for pensions at the rates authorized for other needy veterans who are totally and permanently disabled from causes unrelated to military service.

Currently, a veteran without dependents must have an annual income of less than \$1800 to be eligible for a pension, Smart said. The limit for veterans with dependents is \$3,000.

However, under a law signed recently by President Johnson, beginning January 1, 1969, all income limits are to be increased \$200 a year and most payments will be increased under an asale computed by \$100 income increments.

Today, veterans without dependents receive monthly pensions ranging from \$104 a month (for income

under \$600 annually) to \$45 a month (for income ranging between \$1,200 and \$1,800).

For veterans with one or more dependents, pensions are from \$119 a month (for an annual income under \$1,000) to \$50 a month (for incomes between \$2,000 and \$3,000).

Under a law signed by President Johnson last summer, the Viet-Nam era is considered wartime service for non-service-connected disability pension purposes.

Veterans interested in more information should contact their nearest VA office, Smart said they should keep in mind that pension benefits are not related in any way to compensation to which a veteran may be entitled for disability relating to his military service.

No income limits apply to compensation payments, Smart said.

A graduate of Elba High School, Lance Corporal Grimes entered the service in January 1967.

## SURVEY IS MADE ABOARD BATTLESHIP

The University of South Alabama today released the results of a survey made aboard the battleship Alabama.

The survey indicated that the visitors considered three items to be of greatest interest, according to Professor E. R. Cimino who headed the work. The items were the awesome size of the ship, the big guns, and the Alabama's contribution to the war.

Over eighty percent of those contacted considered their visit worthwhile with above forty five percent stating that it was extremely worthwhile, less than one percent were dissatisfied.

## LITTLE LEAGUE REPORT

The Yankees beat the Cardinals 2-0-7 in the first game Tuesday night. Mickey Marler was the winning pitcher.

Kenny Driggers and Ronnie Coluin scored the tying and winning runs in the last inning to give the Tigers a 3-2 victory over the Pirates. The Tigers took over first place with this win. Mike McGuire was the winning pitcher. Heath Bullard had two hits for the losers.

Freddy Hanchey's no hit pitching led the Cardinals to their first win in 14 games Thursday night. The first place Tigers were their victims 6-4. Charles Ellis had two hits for the winners.

The second game was another upset as the Yankees whipped the Pirates 11-9. Bill Mickle and David Smith had two hits each for the winners. Randy Muller was the winning pitcher. Ken Reeves had three doubles for the Pirates.

## SBA Loans In Alabama Totaled \$17 Million

Small Business firms in Alabama obtained \$17,781,000 in business loans from the Small Business Administration in 1967. Senator Sparkman is the Chairman of the Senate Small Business Committee's Subcommittee on Financing and Investment.

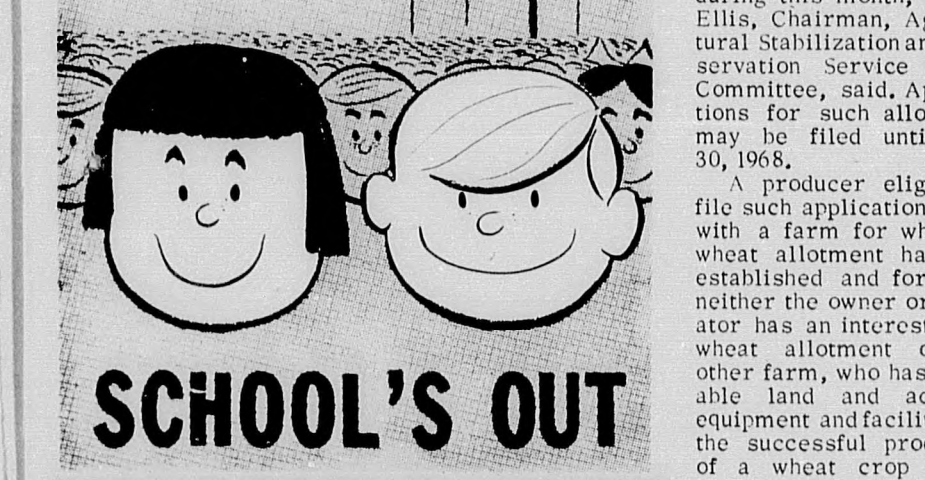

According to year-end figures just made available, Sparkman stated, "this amount was shared by over 300 borrowers. It is gratifying to me that so many small and progressive Alabama business firms benefited to such an extent from SBA's financial assistance program," said Sparkman.

who helped with many of the programs. This demonstrates that small businessmen in Alabama are on the move and intend to participate fully in this nation's economic growth.

In addition to the regular business loans, totaling \$14,021,000, Alabama firms received from the SBA \$4,000,000 in Economic Opportunity loans; \$354,000 in Displaced Business loans; \$2,481,000 in Economic Development loans; \$300,000 in financial aid from federally-licensed

## LITTLE LEAGUERS NEED PARENTS SUPPORT - NOT THEIR CRITICISM

SHUT UP, MAMA! AND YOU, TOO, DAD

There will be more than 4,000 kids playing some form of organized baseball here this summer, and I'm not knocking that.

They will be dressed in handsome uniforms, most of them, with striped socks and knickerbockers and they will be playing on manicured diamonds with real bases and painted fences and umpires, real umpires. I'm not knocking that.

Organized baseball for boys has grown so fast it's hard to find a sandlot game anymore. I'm talking about a game of choose-up-sides and play-until-mamma-calls baseball where the only fence is barbed wire or a hedgerow and bases are boards or rocks or cow chips. You don't see much of that anymore, but I'm not knocking that.

And I'm not knocking the spirit of the Knotheole Gang or Dixie Youth or those daddies who volunteer their afternoons and nights so that these kids can have a coach. There's nothing wrong with that.

But the first loud-mouth parent who yells "Dope!" at a kid for getting caught off base ought to be sent home for the season. The first coach who storms out on the field

## Highway Patrol Report

Colonel Floyd H. Mann, State Director of Public Safety, stated that from 6:00 p.m., Friday thru 12 midnight Sunday, the Alabama Highway Patrol investigated 209 rural accidents with 97 injuries and 14 fatalities that occurred in the following counties - 4 each in Lee and Jefferson and 1 each in Blount, Jackson and Elmore. This brings the total killed this year to 396 compared with 360 at this time last year. Statewide we have an increase of 36.

Dobah District Commander, stated that the eight county Dobah District troopers investigated 15 accidents with 11 injuries and no fatalities. So far this year 45 people have died in district traffic accidents compared with 39 at this time last year. District-wide we have an increase of 4. The violations that caused these accidents were - reckless driving, speeding, driving drunk and inattention. 115 arrests and 157 warnings were made by the district troopers for these violations.

Colonel Mann stated that improper driving of one kind or another causes most accidents, but the drinking driver, young or old, have higher proportions of accidents than other groups. A higher percentage of the innocent, not at fault, dead or injured drivers, were killed or injured by the drinking driver. This is further proof that the responsibility of the drinking driver is not only to himself, but to others as well. All drivers should accept

Dr. Donald H. Crook, of Elba, was recently promoted to the rank of Colonel in the U. S. Army Reserve. Dr. Crook, a veteran of 20 years in the Reserves is assigned to the 3345th U. S. Army Hospital Section 2, Montgomery.

In a letter to Colonel Crook, Commanding General Leonard S. Woody said, "This advancement in your military career is a tribute to your fine performance, as an Army officer."

Reading the promotion order to Colonel Crook is Unit Adjutant Captain Joe Duckworth of Montgomery.

he measured by how much he can smile, how many encouraging words he can give a boy when he's confused or rattled.

A RULE OF THUMB

I'm no psychologist, but I think a certain rule of thumb of boy-handling can be made. Give a boy a sense of fitness, of belonging and impress him with the responsibilities that go along with that belonging and let him play his game for fun.

You've done a lot for the kids. You've put handsome uniforms on them, put them in lighted parks with fences and bases and umpires but don't forget that this was your idea, not the kids.

And don't forget that there are millions of good kids in jeans who could have a lot of sandlot baseball fun without you. I'm talking about a game of choose-up-sides and play-until-mamma-calls baseball.

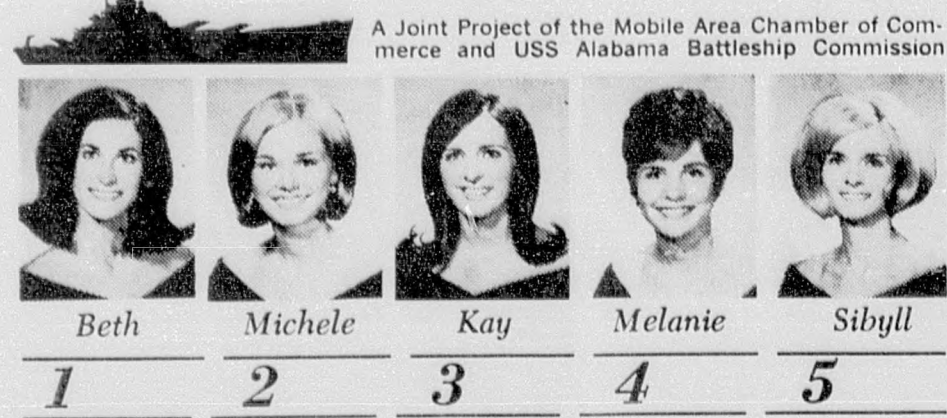

Maybe I didn't learn as much playing that kind of ball, but I don't remember ever leaving the lineup crying. I don't remember hearing an adult yell "Dope!" when I was caught off base and I don't remember my legs shaking at home plate.

## Safety Tips For Holiday Travelers

Probably the safest place to spend the fourth of July holidays is in your back yard, according to Colonel Floyd H. Mann, Director of the Department of Public Safety. However, if you are traveling on the highways during this period, the Director suggests these safety tips for your safe travel. Obey all rules of the road. Pay attention to road signs, they are for your safety. While you drive devote yourself to defensive driving, and in all instances, avoid driving after drinking, and refuse to ride with a drinking driver. Be ready to reduce speed or stop the instant potential danger appears, as speed was the major cause of the fatalities on the state's highways during last year's Independence holidays.

Colonel Mann further noted that trailers and boats pulled behind motor vehicles will be on the roads in large numbers during the holiday period and requests drivers to be aware of the extra length and width of these combinations.

In order to make this a safe fourth of July holiday, each person should remember that safety is his responsibility.

COFFEE NEWS & CHAT

COOKING TIPS: Most of us are always interested in saving a few pennies. Here is a penny saving idea. If you place hot coals from your grill, after you've finished cooking, in a bucket of water to extinguish the fire you'll be able to use them over. Remove them from the bucket and spread them out on a flat surface before storing them in a covered metal container in a dry place. Charcoal can ignite spontaneously when moist.

CUT FLOWERS: Preserving the beauty of cut flowers isn't very hard. All you have to do to lengthen the life of the blooms is to cut flowers in the early morning or late afternoon. Select flowers that are not fully open and cut the stems at a slant.

Remove any broken or bruised parts of the stem. After flowers have been arranged keep them in a cool place. Replace the water and change the water daily.

WATERMELON: Although a watermelon is like a book in many ways—you can't tell much by its cover—select one that is symmetrically shaped with a dull, velvety appearance. Avoid shiny-surfaced melons because they might be overripe. Actually, color is the best key for selecting a melon. A yellowish underside, regardless of the rich green of the rest of the melon, is a good sign of ripeness. Melons that are greenish or white on the underside are usually immature.

By the way, why not put up some watermelon pickles. They will make excellent decorations at the holiday time if you color them with vegetable coloring.

FREEZING: Last week I mentioned how important it was to blanch all vegetables. The only vegetable that doesn't need blanching is bell pepper.

I believe if homemakers understand why blanching is necessary and then properly blanch vegetables, frozen vegetables which they eat during winter months will be of highest quality.

For information on freezing or canning please call my office.

IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

The Church and Riots

WHAT is the proper function of the Church? In his Sunday morning sermon the minister of a large church said recently, "The great problem facing the church today is to do about riots and racism." This is an amazing statement about the church's role in the world.

Dr. Kershner ways believed that the main task of the church was to carry out the instructions of its founder, "Go ye into all the world, and preach the Gospel to every creature." (Mark 16:15)

In a moment of great insight John the Baptist, looking upon Jesus, said, "Behold the lamb of God which taketh away the sin of the world." That is the main business of the church. It will be the solution of the world's ills by government action and intervention in the activities of men.

New houses may be built, but they will soon become slums if they are inhabited by people from whose hearts slum attitudes have not been eradicated. Tax money may be spent for houses and jobs, but unless personalities are changed by the acceptance of the Gospel of Christ, little will be accomplished. And, meanwhile, the burden upon taxpayers will become greater and greater, until incentive is destroyed and more and more people sink into the dependent class.

We need a rebirth of self-reliance and independence. This can come only through reconciliation with God and acceptance of His guidance. To bring this message of hope and faith to the people is the business of the church. Repentance is the forerunner of salvation. Let the church accept the great command of Jesus and, with self-sacrificing devotion, preach the Gospel to every creature. That is the way out of our difficulties. That is the hope of the world.

## Coop Registers All-Time High Demand

June 21 marked the official beginning of summertime but days before that near-record high temperatures sent power demands soaring. Alabama Electric Cooperative on eight different days in that hot pre-summer wave registered all time high demands.

New highs of 100.3 megawatts (one million watts), 101.3 megawatts, 102.9 megawatts and 103.3 megawatts were registered at the controls of Alabama Electric in the hot days between June 11 and June 20.

Alabama Electric is a generation and transmission cooperative which provides bulk electricity to municipalities and distribution cooperatives throughout South Alabama.

## You have all weekend to take advantage of the phone company.

Anytime on Saturday and Sunday, you can call anywhere in the country for a dollar.

If you've ever called long distance during the day, you probably know it's more expensive than calling after 7 p.m. and all day Saturday and Sunday.

So you can understand why some people feel the way they do about us. After all, they argue, why can't we charge the cheaper rate all day long? The answer boils down to the Law of Supply and Demand.

Most people call long distance during the day, when we charge our regular rates. So we can't really squawk about needing more business during those hours.

But in the evening, our office is more like a ghost town than anything else. Since running a ghost town is a losing proposition, we decided to run what you might call a sale on long distance calls. And that's when you can take advantage of us.

In fact, you can call anybody, anywhere in the country for a dollar or less.

Obviously, opportunities don't knock but once. It knocks after 7 p.m. And all day Saturday and Sunday.

General Telephone A dollar goes a long way.

## Garden Club Wins Awards

Elba, under the sponsorship of the Azalea Garden Club and with the help of other civic organizations, competed in the recent Alabama Civic Improvement Contest, sponsored by the Garden Clubs of Alabama Inc. and the Community Improvement Fund of Sears.

The Azalea Garden Club's entry, a book filled with pictures, articles, and letters of commendation concerning the club's various city-wide beautification projects, won first place in District 7—receiving two cash awards of \$100 and \$10 and a certificate which read in part, "In recognition of your outstanding activities in planting the seeds of civic development and improvement for present and future generations to harvest."

Projects the club members have undertaken include major landscaping at Elba General Hospital, Elba Nursing Home, Evergreen Cemetery, and a recent city clean-up campaign.

**NEW PASTORIUM**—A service of dedication and openhouse was held Sunday afternoon at the First Baptist Pastorium, located on Pinedale Drive. The house, equipped with the most modern conveniences, occupies an area of 3850 square feet. Construction was begun in July of 1967 and the house was completed in February at an approximate total cost of \$38,000.00. Pictured from left in top photo are Mrs. J. W. Kendrick, who welcomed the guests; Rev. and Mrs. Jim Auchmuty, Mr. and Mrs. Milton Lites, Olen Bailey, and Charles Jacobs, who composed the receiving line. Pictured from left in lower photo are servers and guides: Mrs. Paul Morrow, Mrs. Harold Hudson, Mrs. George Hocutt, Mrs. J. Doug Kendrick, Mrs. Olen Bailey, Mrs. Sam Sawyer, general chairman of the open house, Mrs. Buddy Windham, and Mrs. Charles Jacobs.

## BPW Presents Skit At Picnic

**UP, DOWN AND AROUND**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four small prayers which every person should recite regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## ON TOMBIGBEE RIVER

## Reduced Stream Flow Kills Fish

Charles D. Kelley, Chief of the Game and Fish Division in the Alabama Department of Conservation, said that the major fish kill recently on the Tombigbee River below McIntosh in Washington County, which killed more than 50,000 fish, was apparently caused by "a reduced stream flow which intensified toxic effects of industrial discharge into the river."

Kelley said Sam L. Spencer, Chief Research Fisheries Biologist in the Division of Game and Fish, reported that dead fish were scattered along a 15-mile stretch of the river.

Spencer said, "The ac-

tual number of fish killed was probably much higher than 50,000 because many of the dead fish have sunk to the river bottom or drifted father downstream. Spencer noted, "Some industries in the area apparently had not received advance notice of the reduced stream flow downstream from the Jackson Lock and Dam. The water quality of the river in this area is so low that when the river flow is reduced, industrial effluents must be immediately reduced or a fish kill is likely to occur."

Archie D. Hooper, Chief Fishery Biologist, said the

area has been the site of many fish kills in recent years.

The site of this kill is immediately downstream from Geigy Chemical Co. and Olin-Mathison Chemical Co.

Spencer reported that the major species affected by the kill were bream, shad, crappie, eel, mullet and drum.

The Alabama Water Improvement Commission, the state pollution control agency, also investigated the kill and collected water samples from the area of the kill Tuesday. These samples have been sent to the Southeast Water Laboratory at Athens, Georgia, for analysis.
